

Welcome and greetings to all!

As we are all adjusting to the new normal regarding Coronavirus (COVID-19), some precautions, recommendations, and protocols have been implemented in the house of worship. After reviewing New Jersey, Federal, WHO (World Health Organization) and CDC (Centers for Disease Control and Prevention) guidelines and recommendations, we are advising all attendees to wear a mask regardless of vaccination status. We want to keep all members and guests safe while on the church grounds.

Face masks have been strongly recommended for both vaccinated and unvaccinated individuals while attending indoors activities. To reduce the possibility of transmission, we have set these parameters to make sure all feel welcome and safe while attending worship services. We ask that masks be worn above the nose and securely around the ears.

Our sanctuary and fellowship hall are sanitized before each service and we have also established two hand sanitizing stations: one at the entrance of the church and another inside of the sanctuary.

As local and federal protocols are updated we will adjust ours accordingly.

Thank you for your cooperation in helping to keep us all safe.
